After having explored different styles of dance, Faboo & Nalita started House Dance about 15 years ago. Raised in Paris, Faboo learnt from the House Dance European pioneers, such as Rabah, and quickly gained experience and recognition in this scene. As for Nalita, House Dance pioneer in her Swiss city, Lausanne, once she discovered this style, she decided to create a community in her city. Now both based in Lausanne, together they've travelled the world to teach workshops, judge competitions and share their passion. Finally, in 2021, they opened the very first House Dance studio in Switzerland, called FaNa Space. Last but not least, they now organise the only House Dance event in Lausanne, House of FaNa, whose goal is to develop the culture and enable exchanges between dancers from different generations and different backgrounds and countries.
